

## **SoftJin Expands Operations, Opens Office in USA**

*California Office to Focus on DFM & Programmable Platform Segment*

**Santa Clara**, California -- March 30, 2005 -- SoftJin, an EDA (Electronic Design Automation) software development services company, today announced that it has opened its first office in the USA. The Santa Clara office addresses the North American electronic industry's need for new and customized EDA software development services and EDA tool building blocks.

SoftJin's EDA software development services and building blocks are used by research and in-house CAD divisions of semiconductor companies and EDA companies. .

The company plans to provide customized software development and building blocks that address the needs of US based suppliers in the DFY/DFM (Design for Manufacturing/Design for Yield) and Programmable Platforms space. .

“Our goal with respect to US office is to build on our past successes, increase our penetration in the US market and support s the EDA software development tool needs of our customers,” remarked Nachiket Urdhwareshe, CEO, SoftJin. “We picked California because of Silicon Valley and our growing customer base in the region.”

**Kalyan Patel, SoftJin's Business Development Manager in the US commented, “We see a new inflection point in the EDA landscape with customers requesting customized tools especially in post layout manufacturing area and emerging programmable fabrics and Softjin presence in the US is ideally positioned to take advantage of this opportunity”.**
